The subject acceptance criteria was posted for comments under the alternate criteria process during the February posting period. Comments were received and considered, and provided answers to some of the original questions. Since the subject of this acceptance criteria has life-safety aspects, the proposed AC394 will be heard at the May Evaluation Committee Meeting in Chicago.

If you have any questions, please contact Richard Beck, at (800) 423-6587, extension 5690. You may also reach us by e-mail at es@icc-es.org.

Yours very truly,
