MEMO

The purpose of this memo is to inform the committee that, as of the date of the memo, staff has not received any written comments in response to the December 28, 2007, staff letter.

The staff had a meeting on January 23, 2008, with the evaluation report applicant and their technical consultant to discuss concerns raised in the staff letter. Based on our discussions, responses to the comments in the staff letter are expected. Since the response is still forthcoming, staff is not able to provide further comments at this time and it is questionable whether staff will have the time needed to review the written responses before or at the meeting.

Thank you for your consideration.
