SUBJECT: Acceptance Criteria for Insulated Protective Covers Used Over P-traps, Supply Stops and Risers, Subject AC404-1008-R1 (MB/CA)

Dear Madam or Sir:

The subject acceptance criteria was considered by the ICC-ES Evaluation Committee on October 21, 2008, and was held for further study. Questions were raised in written correspondence and at the hearing with regard to the physical property tests and whether the covers are subject to requirements in IBC Section 719. Staff requested additional time to review the comments.

Yours very truly,
