TO: PARTIES INTERESTED IN EVALUATION REPORTS ON ATTIC VENTS

SUBJECT: Proposed Revisions to the Acceptance Criteria for Attic Vents, Subject AC132-1208-R3 (GN/WM/MO)

Dear Madam or Sir:

The subject revised acceptance criteria was reviewed under the alternate criteria process. The proposed revisions were posted to our web site for public comment in December. The revised acceptance criteria was approved by ballot of the ICC-ES Evaluation Committee in December 2008 with a February 1, 2009, effective date.

The revisions are as follows:

1. Added ASTM D 1929-96 (2001)^{e1} to Section 1.3.
2. Added references to ASTM D 635 and D 1929 to Section 3.3.1.
3. Revised Section 6.1 from what was presented at the October 2008 Evaluation Committee meeting.

Evaluation reports issued on or after the effective date noted above, and falling within the scope of this criteria, will be required to comply with the revised published edition of the criteria. Evaluation reports issued prior to the effective date may be in compliance either with the revised acceptance criteria or with the previous edition. Evaluation reports based on a superseded version of an acceptance criteria must be brought into compliance with the most recent edition at the time the reports are reissued. Therefore, applicants should submit data verifying compliance at the time they apply for re-examination.

If you have any questions, please contact Woods McRoy, at (800) 423-6587, extension 5686. You may also reach us by e-mail at es@icc-es.org.

Yours very truly,

Kurt Stochlia, P.E.
Vice President
