TO: PARTIES INTERESTED IN EVALUATION REPORTS ON METAL COMPOSITE MATERIAL

SUBJECT: Proposed Revisions to the Acceptance Criteria for Metal Composite Material, Subject AC25-0610-R1 (GN/DM)

Dear Madam or Sir:

In June 2010 proposed revisions to the subject acceptance criteria were posted on the ICC-ES web site for public comment, under the alternative criteria process. The revised criteria was concurrently balloted to the ICC-ES Evaluation Committee.

Although the revisions proposed by the ICC-ES staff received a favorable response from the public and a favorable ballot from the committee, comments from the public requested additional changes that the staff could not consider without including them in a new set of proposed changes to allow for public review and comment.

Therefore, rather than issue a revised AC with only the changes considered on the June 2010 alternative agenda, the ICC-ES staff has taken the criteria under review and the criteria is being placed on the on the agenda for the October 2010 meeting of the ICC-ES Evaluation Committee. At that time, the committee will consider both the revisions proposed by staff on the June 2010 alternative agenda as well as the additional changes that were received during the public comment period.

If you have any questions, please contact the undersigned at (800) 423-6587, extension 5684. You may also reach us by e-mail at es@icc-es.org.

Yours very truly,

A handwritten signature in black ink that reads 'Gary G. Nichols' in a cursive script.

Gary G. Nichols, P.E., SECB
Vice President
