

Web-based seminar for AC304 accredited inspection agencies to be held May 10, 2007

ICC-ES will be hosting a web-based seminar for inspection agencies to cover recent changes in ICC-ES requirements for quality documentation and inspections of manufacturing facilities. The seminar will be targeted to AC304 accredited inspection agencies conducting qualifying inspections. We have been making presentations on this subject in conjunction with our regularly scheduled Evaluation Committee meetings, but the purpose of this web-based seminar is to reach inspectors and their supervisors who may not have the opportunity to attend the meetings.

The seminar, presented by Michael Beaton, Senior Regional Manager of our Los Angeles office, will explain the inspection process; define the roles of the evaluation report applicant, ICC-ES staff and the inspection agency; and provide answers to questions.

The seminar will be held on May 10, 2007, at 8:30 a.m. Pacific daylight time and is expected to last approximately two hours.

We regret that we can only offer this seminar to those companies in the United States and Canada.

For more information about attending this seminar please contact Sharon Arndt, ICC-ES Administrative Coordinator, by phone at (562) 699-0543, extension 3289, or by e-mail at sarndt@icc-es.org.
