ICC-ES PMG Listing Program Gains Significant Momentum

From San Jose, California, to Paris, France, the ICC Evaluation Service, Inc. (ICC-ES) PMG Listing Program has experienced tremendous growth in the last year with more than 30 product listings from manufacturers around the world.

First introduced in February 2008, the ICC-ES PMG Listing Program verifies that plumbing, mechanical and fuel gas (PMG) products meet the industry's leading codes and standards. ICC-ES lists innovative and established products that span the plumbing, mechanical and fuel gas market, including ducts, heating, cooling pipe, hoods, ventilation equipment and shower pan liners.

"We're excited about our growth thus far," said ICC-ES President Mark Johnson. "Our listing program continues to gain significant momentum as manufacturers, building departments and consumers increasingly look to the ICC-ES PMG listings that verify these products meet all applicable standards and codes."

"The ICC-ES PMG Listing Program is an invaluable tool for product manufacturers, designers, and code officials in determining the proper approach when dealing with new and creative options for cost-effective construction, water and energy conservation, and creative designs," said Ron Lynn, Director and Building Official for Clark County Department of Development Services, Las Vegas, and Vice President of the Code Council Board of Directors.

ICC-ES PMG evaluates products based on requirements in one or more codes, including the *International Plumbing Code*, *International Mechanical Code*, *International Residential Code*, *International Fuel Gas Code*, *Uniform Plumbing Code* and *Uniform Mechanical Code*.

The ICC-ES PMG listing service provides manufacturers with a quick and cost-effective way to get code-compliant products listed and into the market. Manufacturers pursuing listings with

ICC-ES can expect to pay up to 20-percent less than they would for services provided by other listing agencies. For more information or to view the ICC-ES PMG listings, visit www.icc-es.org/pmg or call (800) 423-6587, ext. LIST (5478).

A nonprofit, public-benefit corporation, ICC-ES is the United States' leading evaluation service for innovative building materials, components and systems. The ICC-ES Evaluation Reports and PMG Listing Program provide evidence that products and systems meet requirements in codes and standards. The ICC-ES SAVE Program provides verification that products have been independently verified as having the sustainable attributes claimed by the manufacturer to develop and advance sustainable design and construction. ICC-ES is a subsidiary of the International Code Council.
